August 1949

This is an alphabetical index to the Lists of War Criminals, Suspects, and Material Witnesses, Nos. 41-45 and 50-60, published by the United Nations War Crimes Commission from August 1946 to July 1947. An index to Lists 1-40 was previously published by the Commission, and a single card index to all Lists (Nos. 1-80) exists in the United Nations Archives.

The present index, in four volumes, has been reproduced in the United Nations from stencils prepared by the U.N.W.C.C. It is important to note that the checking and editing was not completed. Although the index is presumed to be accurate, any substantive data should be checked against the lists to which it refers.

The following explanatory notes, quoted from the introduction to the first published index, are also applicable here:

It should not be regarded as a repetition of these Lists, but as a kind of directory to them, showing only names of persons listed, their nationality, rank and official position, countries by whom the individuals are wanted, as well as the necessary reference to the Commission's Lists.

It should be noted that the spelling of the names has been recorded phonetically in some cases and should not necessarily be taken as definite.

The information given against each name in Column 1 does not necessarily refer to the nationality of the individual; but in some cases indicates the enemy organisation, office or unit, with which the individual, though of different origin, was serving. In the latter cases, his actual nationality or origin has been indicated in the respective List.

Categories of classification are indicated in column 4 by the following symbols:-

"A" - War Criminals:

"S" - Suspects:

"W" - Witnesses.
